MOHAMMAD SAUD

0345 4484352 | mohammadsaudattari@gmail.com | Jhang Sadar, Pakistan

SUMMARY

Highly skilled and dedicated **C# .NET** Software Engineer with a passion for developing robust and scalable applications. Proficient in leveraging the **.NET framework** to design and implement innovative solutions, optimizing performance, and ensuring seamless user experiences and also proficient in **C++** programming and experienced in developing different **Console Applications.**

PROJECTS

Student Management system (with Admin & Student Dashboard) | Govt college Jhang Sadar | March 2023 - March 2023

- This project is created using **C++** and incorporates various **data structures**. Its main purpose is to facilitate the modification, addition, and removal of students from the system.
- The application is designed as a **console-based program.**

Pharmacy Management System (With GUI) | Govt College Jhang Sadar | April 2023 – April 2023

- This project is created using **C#** with **.NET Framework**, and its primary objective is to manage pharmacy inventory and essential patient information.
- The **front-end** of the application is also developed using **.NET Framework**

Voting System (With Vote Counting and Display Final Votes Result) | Govt College Jhang Sadar | May 2023 – May 2023

- This project is also created using **C#** with **.NET Framework**, and its primary objective is to add candidates, count votes for each candidate, and display the final voting results.
- The **front-end** of the application is also developed using **.NET Framework.**

Weather App (Using API with GUI) | Govt College Jhang Sadar | June 2023 – June 2023

- Weather app is created using **Open Weather API** in **C# .NET** and full of GUI
- This App fetches data like city name temperature and others.

EXPERIENCE

Software Developer | Govt College Jhang | 2022 – 2023

- I have developed different Console projects using **C++ (OOP)** and **DSA (Data Structured and Algorithm)** as well as GUI based Desktop applications in **C# .NET Framework**.
- These projects are based on Real life problems Like Student management systems, Pharmacy Management System, Voting system and Weather apps and many more using **API** and **.NET.**
- These Projects also linked with **SQL Server** database to store data permanently.

Video Editor | Bright Eaglets Colleges Jhang | Jan 2022- Dec 2022

- Edited footage for various YouTube channels and college Lectures using various software like **Adobe Premiere Pro**, **Camtasia**, and **Filmora**.

Web Developer | Bright Eaglets Colleges Jhang | Jan 20222- DEC 2022

- During my Internship at the college I worked on different Programming Languages Like (**HTML, CSS, and JavaScript**) and also CSS frameworks like **Bootstrap**.
- Also use PHP for just creating a database using MySQL.
- During Web Development we have used different CMS (content management system) Like **Wordpress.**

EDUCATION

Degree	Subject	Passing Year	Marks	Board
Matriculation	Science	2019	907	BISE Faisalabad
Intermediate	Pre-Engineering	2021	939	BISE Faisalabad
Bachelor	Computer Science	2025	Continue	GC Faisalabad

Skills

1. **Programming:** Proficient in **C# .NET Framework, C++** with **DSA**, as well as HTML, CSS, and JavaScript.
2. **Database:** SQL Server.
3. **Video Editing:** Experienced in video editing using different software's.
4. **Website Development:** Skilled in website development, including Wordpress.
